1. ABOUT THE UNIVERSITY

Swami Rama Himalayan University (SRHU), a top private university in Dehradun, endeavors to transform lives through a holistic approach to education, providing integrated health care services and effective rural development and social outreach programs.

With a rich legacy of Himalayan Hospital & Himalayan Institute of Medical Sciences, the first and the largest NABH-accredited private teaching hospital and medical college of Uttarakhand, SRHU has been providing a platform to the youth, for a decade, to learn and transform into efficient, effective, ethical, and committed professionals.

SRHU is the only university in Dehradun, Uttarakhand, that has a dedicated multispecialty Himalayan Hospital, Cancer Research Institute, Ayurveda Center, and Rural Development Institute, all under one roof, besides eight schools and colleges, namely: Himalayan Institute of Medical Sciences, Himalayan College of Nursing, Himalayan School of Management Studies, Himalayan School of Science & Technology, Himalayan School of Bio Sciences, Himalayan School of Yoga Science, Himalayan School of Vocational Studies & Skill Development, and Gauri Himalayan School of Science & Technology at Toli, Uttarakhand. Students have a range of options to pursue their academic aspirations and further advance their learning through interdisciplinary and multidisciplinary programs and research. In addition, there are ample opportunities for extracurricular & co-curricular activities necessary to become an all-rounder. Furthermore, mentoring, meditation, and Science of Joyful Living (SoJL) workshops help students grow as complete individuals.

2. DEPARTMENT OF CLINICAL PSYCHOLOGY

The Department of Clinical Psychology has been an integral part of the Swami Rama Himalayan University since 2003, serving nearly 4000-4500 people every year across the state of Uttarakhand and nearby areas of Uttar Pradesh and Delhi (NCR). According to a survey conducted by WHO in 2006, Himalayan Hospital was the stand-alone medical institute that initiated and provided psychological services to the people of Uttarakhand. The department is dedicated and committed to providing affordable and quality treatment services. Furthermore, focus on thorough and excellent education and practical training of students in the mental health profession. Currently the department consists of five faculty members.

3. ABOUT THE PROGRAM (PROFESSIONAL DIPLOMA IN CLINICAL PSYCHOLOGY)

Although in the last five years the number of centers offering M.Phil. Clinical Psychology training and the number of students undergoing the professional training in clinical psychology have increased by many folds, the available manpower is still no match for the number required to meet the growing demands in the mental health area.

In order to meet this gap, professional training of one-year duration in clinical psychology, laying emphasis on critical domains, has been developed. The candidates, on successful completion of the Professional Diploma in Clinical Psychology, can register with RCI as "Clinical Psychologist (Associate)" under CRR and function in service settings as experts/specialists in non-academic service settings.

4. OUTCOME OF PROGRAM (PROFESSIONAL DIPLOMA IN CLINICAL PSYCHOLOGY)

The clinical psychologists (associate) are distinguished from the M.Phil.-qualified clinical psychologists. They later become full-fledged professionals with a higher level of competency and responsibility in service, academic, and research areas, whereas clinical psychologists (associates), by the nature and duration of their training, are considered not fully adept to function as academics. They are, however, considered competent enough to be involved in a broad range of professional service activities. The clinical psychologist (associate) will be used as an underfill class for existing clinical psychologist positions under the state and central government sectors. However, the roles in such appointments are limited only to providing clinical services to clients with mental illnesses and do not involve independent responsibilities in academic activities such as teaching/training/guiding/supervising students of clinical psychology at the academic departments. In these activities, diploma-qualified individuals may be assigned roles of clinical assistant and/or teaching assistant or junior consultant as deemed fit in teaching/training centers.

5. AIM & OBJECTIVES OF THE COURSE (PROFESSIONAL DIPLOMA IN CLINICAL PSYCHOLOGY)

This cadre of professionals has been created, as emphasized earlier, to fulfill the acute shortage of trained personnel in the mental health field.
