# LIMITLESS VISION, BOUNDLESS INSPIRATION

## FOUNDER'S LEGACY

Born in 1925 in Uttarakhand, H.H. Dr. Swami Rama was a Yogi, philosopher, scientist, and humanitarian. Mentored by luminaries like Mahatma Gandhi, Sri Aurobindo and Rabindranath Tagore, he pursued higher studies in India and Oxford before serving as a medical consultant in London and conducting parapsychological research in Moscow.

Guided by his master, he journeyed worldwide on a quest to bridge science and spirituality. Along the way, he founded an array of top-tier spiritual and medical institutions. In the 1970s, he established the Himalayan Institute of Yoga, Science & Philosophy in the U.S., pioneering research that proved the mind's power over the body. His yogic feats were featured in Encyclopedia Britannica (1973), influencing holistic medicine and biofeedback therapy.

Returning to India, he founded the Himalayan Institute Hospital Trust (HIHT) in Dehradun, transforming healthcare and education landscape of Uttarakhand. A sage ahead of his time, Swami Rama's legacy continues to inspire generations. His mission was to serve the people of Uttarakhand in the field of health, education, rural development and more.

“  
Your real education begins  
when you learn to explore  
and discover yourself.

AT SRHU

## CAN EDUCATION BE MORE THAN A TRANSACTION?

Beyond the conventional pursuit of academic achievement and career readiness, can it provide a direction to life's journey? Can it create strength of character? Make high energy a habit? And forge a mind-set that meets every challenge with unwavering resolve?

At SRHU, we believe education must go beyond the classroom.

For us, the syllabus marks the beginning, not the destination. We are committed to holistic development—combining academic rigour with real-world exposure, meaningful mentorship, and experiential learning. From nurturing ideas and transforming them into enterprises to providing dedicated platforms for leadership development, we create opportunities that prepare students for life, not just careers. Alongside academic excellence, we cultivate entrepreneurship, mentorship, leadership, and hands-on work experience through internships and industry engagement. This is how learning becomes a way of life.

At SRHU, life skills are not taught in isolation—they become second nature. Because the journey of life is shaped not merely by speed, but by purpose and direction.
